About me: Recent graduate from Coders Lab full-time on-campus course, I discovered my passion for web development by taking an idea from the drawing board and turn it into reality. So for the last few month I have been learning to take care of layout, design and interactivity using HTML, CSS and JavaScript. Besides, after more than 280 hours of intensive programming classes I've gathered important skills like React, ES6, JQuery, Node.js and others, that allow me to self-sufficiently develop responsive web sites based on any given layout. You can find my portfolio website at <https://laurasimion85.github.io/meetlaura/>

## ● EDUCATION AND TRAINING

---

02/2021 – CURRENT – Bucuresti
